

Name: _____

Class Period: _____

Date: _____

I would like to hear some student-feedback regarding what your experience was like today in class, using the wiki page. *You may choose to answer all the questions... some of the questions... none of the questions—it's your choice. In fact, you may just write me a note if you'd like that pertains to the questions I've posed below.*

Please consider the following questions in your response:

- 1) What CHALLENGES or struggles did you encounter while working with the computer and the wiki page?
- 2) What SUCCESSES or benefits did you experience today while working with the computer and the wiki page?
- 3) Did you like, or dislike, working independently to complete today's objectives? Please explain.
- 4) Were you able to complete ALL of today's objectives? If no, why not?
- 5) Did you like, or dislike, the way in which you were instructed today? (You given a "To Do" list of sorts—did you like that? Why or why not?) Please explain.
- 6) Any additional comments or questions you'd like to share. ☺

PLEASE PRINT AND SUBMIT TO MRS. TOLIN WHEN YOU'RE DONE. OR, YOU MAY SEND IT THROUGH EMAIL: ANNA.TOLIN@NORDNIASCHOOLS.ORG
